

SPOKANE GUILDS' SCHOOL
& NEUROMUSCULAR CENTER
35TH ANNUAL
SPRING
GALA
DINNER AUCTION
SATURDAY, MARCH 5TH, 2016
SPOKANE CONVENTION CENTER
334 W Spokane Falls Blvd, Spokane WA

SPONSORSHIP OPPORTUNITIES

Thank you for considering our underwriting request to support our 35th Annual Spring Gala, dinner and auction to be held on March 5, 2016. This evening is always full of entertainment, excitement, an excellent catered dinner, and is a wonderful opportunity to share our mission and create awareness within our community.

The Spokane Guilds' School provides early intervention therapies to over 230 children annually in Spokane County who have developmental disabilities and delays. The average cost for one child to attend the SGS&NMC for one year is \$15,000. All services are provided regardless of race, religion, gender or ability to pay. We are a non-profit organization that relies on community support to continue our important work.

On behalf of our "little ones" with developmental disabilities, thank you for considering our request. It is community members like you who have enabled the Spokane Guilds' School & Neuromuscular Center to carry out its vital work for over 50 years. We look forward to many more amazing years of caring for the children in our community!

With sincere appreciation,

Bill Ryan
2016 Auction Chair

SPOKANE GUILDS' SCHOOL
FACT SHEET

We exist because no child should sit on the sidelines of life. Through our early intervention services, children with developmental disabilities are given a chance to grow and reach their full potential.

The Spokane Guilds' School & Neuromuscular Center (SGS&NMC) is a non-profit organization. It was established in 1960 to provide respite care to families that had a child with a developmental disability or delay.

In 1979, the SGS&NMC became the first neuromuscular center in Washington east of the Cascades. Prior to 1979, families had to travel to Seattle for their child to receive a complete developmental assessment. The SGS&NMC is now one of two neuromuscular centers in Eastern Washington, the other being in Yakima.

Today, the Spokane Guilds' School & Neuromuscular Center is a comprehensive assessment and therapy center for children, birth to three, with developmental disabilities. The brain is quickly developing during this very early age, making this the optimal time to provide intervention therapies to maximize potential, in the least restrictive environment.

SGS&NMC services include: medical evaluations, physical, occupational and speech/language therapies, special education, and access to a full family support center including pediatric nurses and social workers.

Annually, the Spokane Guilds' School & Neuromuscular Center serves over 230 infants and toddlers with developmental delays and/or disabilities.

Many of our students are diagnosed with Down syndrome, cerebral palsy, cancer, autism and other syndromes or impairments that cause a disability such as spina bifida, hearing or visual impairment, and muscular dystrophy.

Families can self-refer or be referred by a doctor or other medical professional.

All services are provided without regard for ability to pay.
